W. W. Shepard, C. S. Biden, G. K. Fitch, Committee.

The following gentlemen were appointed a committee to confer with the officers of the Pacific Typographical Society, and report to this convention a scale of prices for composition on morning and evening papers, at our meeting on Monday, viz.:

E. C. Kemble, W. W. Shepard, C. S. Biden, J. T. Court, F. C. Ewer.

On motion, Resolved, That Messrs Fitch, Russel, and Brinsmade be a committee to report at our next meeting the price at which newspapers shall be sold by the single copy.

On motion, Resolved, That Messrs. Sutherland, Shepard, and Moulder, be a committee to draw up a form of a bond agreeable to provisions of the third resolutions, reported by the committee on business.

On motion, the convention adjourned to meet at 11 o'clock Monday morning.

MONDAY, August 11, Jones' Hotel.

The convention met at 1 o'clock, P M.

The minutes of the two last meetings were read and approved.

Mr. Fitch, Vice President, being in the chair, Mr. Kemble, chairman of the committee appointed to confer with the Typographical Association in relation to the wages paid to pr nters, reported that they had met this morning a committee from that association, consisting of Messrs. J. C. Hinckley, Jas. O'Meara, A. Skillman, Thos. Reed and M. J. Hartnett; empowered to bind the association, as set forth in the following letter:

AUGUST 10.

"Sir—In accordance with a suggestion to the representatives of the Typographical Society in the editorial convention on Saturday, a meeting of the society was held this morning, and a committee of five appointed by the convention.

"The following are the gentlemen composing the committee from the Typographical society:—J. C. Hinckley, Jas. O'Meara, M. J. Hartnett, Thos. Reed, A. Skillman.

"The committee are vested with full power to act with the society.

"The above desire to meet the committee from the convention at Jones' Hotel, at 10 o'clock, Monday morning (to-morrow.) (Signed,)

J. McCOMB, Sec. P. T. S.

Mr. E. KEMBLE, Pres't of Editorial Convention."

After some discussion of the rates of wages, the committee of the Typographical Society declared that they were determined to abide by and receive the rates of wages adopted and hitherto received by the members of the association.

The committee also submitted to them rates of wages for adoption, as follows: For composition on morning papers, each 1,000 ems, $1 50; evening papers, $1 25; morning papers, per week, $60; evening papers, $50; job hands $50; hand pressman, each token, $1 50. Foremen of morning newspaper offices, per week, not less than $80; evening papers, per week, not less than $65; job offices per week, $60.

On motion, Mr. Sloat, of the San Francisco Price Current, was admitted as a member of the convention.

A motion was offered by Mr. F. C. Ewer, that none but the delegates from the city press be allowed to vote on the issue which has been raised between the San Francisco Typographical Society and the Proprietorial convention. The motion was lost by the following vote:

Ayes—Messrs. Fitch, Livingston, Ewer, Ames, DeCourcey—5

Noes—Messrs. Boruck, Kemble, Flower, Crane, Biden, Shepard, Sutherland, Gunn, Sloat—9.

Mr. Shepard moved the adoption of the report, which, after some discussion, was withdrawn, and action upon the question postponed until to-morrow morning at 11 o'clock, and the report was made the special order of business for that hour.

A report from the committee on the Prices of newspapers was received and laid on the table.

On motion, the committee adjourned until 11 o'clock on Tuesday morning.

JONES' HOTEL, Tuesday morning, Aug. 12.

Convention met in pursuance of adjournment. The minutes of last session was read and adopted.

The report of the committee upon the rates of wages to be paid to Printers being taken up as the special order of business, Mr. Shepard offered the following resolution:—

Resolved, That the scale of prices to be paid printers by the proprietors of newspapers, as reported by the committee to whom the matter was referred, be and is hereby established, to take effect from and after the second Monday of September next, and that the proprietors of newspapers give suitable bonds to sustain their rates for the period of one year from the second Monday of September, as specified.

On motion, the consideration of the resolution was postponed until the afternoon session.

On motion of Mr. Crane, it was resolved, That the committee appointed to report a scale of prices for job work be discharged, and that a new committee be appointed for that purpose.

The President appointed the following gentlemen: Messrs. Rust, Ewer and Flower.

The report of the committee on prices of newspapers was taken up from the table and accepted, and after amendments, the following prices were adopted:

Daily papers, when sold to subscribers at the counter, 10c; daily papers, when sold to newsmen to be sold in the streets, or sold to the literary depots, or furnished to Express men to be sold in the State, 5c daily papers delivered to regular subscribers per week, 50c; out of which carriers shall receive for their services, 20c; daily papers, six months subscription, $10; daily papers, three months subscription, $6; semi-monthly steamer papers, 25c each, exclusive of postage; weekly papers, the prices to be determined by the proprietors respectively.

On motion, the convention adjourned until two o'clock P. M.

Want of room compels us to defer till to-morrow the publication of the remainder of the proceedings.

The committee appointed to prepare an address to the people of the State of California from the associated press, made the following Report through their chairman, which was accepted:

REPORT.

The committee appointed to prepare an Address on the part of this convention, to the people of the State of California, beg leave to report—

That they have maturely considered the subject, and are convinced of the propriety of publishing an address, as has been suggested. Under the extraordinary circumstances existing in California—circumstances, political, moral, social and commercial, wholly unprecedented in the history of modern times—and considering the peculiar and intimate relations existing between the people and the press of this State, we are of opinion that an unanimous and concentrated expression of sentiment addressed by us to our fellow citizens, here and on the Atlantic side, with regard to our wants, necessities and rights as a sovreign power, and a member of the American Confederacy of States, will have a powerfuly beneficial effect upon our interests and upon those of the nation at large. That a document emanating from us as a united body may bear with it in the moral weight that we wish to give it, we deem it essential that time should be taken for a full deliberation. It is important that the subject matter of the address should be thoroughly digested, and the address itself framed in a careful and finished manner. The daily duties of your committee have prevented them from bestowing upon the matter before them the attention which its importance demands, and they therefore ask for further time.

In submitting this Report, we offer the following:

Resolved, That the committee appointed for the purpose, be instructed to prepare an address to the people of California at as early a day as possible—such address, if not prepared before this convention adjourns, to be subject to the alteration, ratification or rejection of the editors and proprietors of the newspapers of San Francisco, Sacramento and Stockton, and such others as can be consulted without detriment to the objects in view. The members who reside at more remote points than those named, are requested to commit their views on the subject matter of the address to writing, and hand them to the chairman of this committee

A. C. Russell, Dr. L. C. Gunn, Dr. J. F. Morse Mr. Edward Gilbert, Mr. A. J. Moulder, committee.

After some discussion, the following resolution was unanimously adopted:

Resolved, That the present committee on an address be continued, with instructions to prepare an address as soon as practicable, and to submit the same to the editors throughout the State. Said address not to be published until it has been signed by the entire editorial fraternity in this convention.

A communication was received from Mr. F. o in behalf of the San Francisco Herald, as follows:

F. C. EWER, Esq—Dear Sir: Having duties to attend to, which will prevent me from attending the session of the convention this afternoon, you will be good enough to state to the convention that in an interview with Mr. Nugent since the morning session, he informs me that he considers it impracticable to agree in that portion of the report now pending before the convention, adopting a scale of wages for printers, and declines to concur in the resolution to adopt and abide by the same.

Yours, respectfully,

Tuesday, August 12. SAM'L. FLOWER.

The question on the adopt on of the committee from the convention, as to the scale of wages to printers was taken up and discussed at length. After some remarks from Dr. Gunn, of the Sonora Herald, and M. D. Boruck, of the El Dorado News, the members of the convention from the country, although reserving to themselves the right to vote, waived that privilege out of courtesy to the Typographical Society and the city Press, and the resolution was then adopted by the following vote:

Ayes—E. C. Kemble, Richard Rust W. W. Shepard, C. S. Biden. Noes—Jas. M. Crane, F. C. Ewer.

Messrs. Crane, of the Courier, and Ewer of the Dispatch, who voted in the negative, stated that they would abide by the decision of the convention.

On motion of Mr. Shepard, it was Resolved, that the rate of advertising and Job Work, and price of Newspaper, as proposed and adopted by this convention, take effect on and after the 25th inst.

Mr. Ewer introduced the following resolution, which was adopted: Resolved, That the Secretaries be instructed to writ out such portions of our proceedings as refer to the prices adopted for Job work, Advertising, and the wages to be paid to Printers, together with the votes thereon, and furnish the same to the President of the Typographical Association.

On motion of Mr. Shepard, it was resolved, that a committee consisting of Messrs. Russell, Crane and Ewer wait upon the members of the Typographical Society, and inform them of the necessity and reasons which have induced the Convention to come to the above conclusions.

On motion, the President appointed the following gentlemen a committee to engross and prepare the proceedings of this convention for publication, viz: Marcus D. Boruck, Samuel Flower, L. W. Sloat, C. S. Bidon.

On motion of Mr. Shepard, it was resolved, "That this convention resolves itself into an associated body, under the style and denomination of "The Associated Press of the State of California;" that our annual meeting take place on the 8th day of August, 1852, at such place as the President shall direct, and that the present officers of the convention remain as the officers of this body for one year from the said 8th day of August, 1851.

On motion of Mr. Sloat, it was resolved, That a Book of record be procured by the engrossing committee, in which that committee shall make a fair record of the proceedings of this convention, and that it shall be preserved in some safe place for subsequent conventions therein to record their proceedings.

Mr. Shepard proposed the following resolution, which was adopted:

Resolved, That any and every editor, proprietor and reporter or other person connected with the Editorial Department of any paper in California, be accepted as a member of this Association, upon signifying his wish to become such member and conforming to the resolutions and covenants as agreed upon.

On motion of Mr. Crane, it was Resolved, That the committee appointed to engross the proceedings of this convention, have also the authority to publish the same in pamphlet form.

On motion of Mr. Ewer, it was Resolved, That a committee of three be appointed to draft a constitution for this Association, to be presented for our adoption at our session to-morrow morning. Messrs. Ewer, Sloat and Livingston were appointed the committee.

On motion, the convention adjourned until 10 o'clock Wednesday morning.

JONES' HOTEL, Wednesday Morn'g Aug. 13.

The convention met in pursuance of adjournment.

The Minutes of the last meeting were read and approved.

On motion of Mr. M. D. Boruck, it was Resolved, That the grateful acknowledgements of this convention be tendered to the proprietors of the California Exchange and Jones' Hotel, for the gratuitous use of rooms for holding our sittings; to Messrs. Adams & Co., Dr. Robinson, of the Adelphi Theatre, Captain Hyatt, of the Oriental Hotel, L. W. Raymond, of the Monumental city steamer, captain E. Knight, of the Pacific Mail Steamship company, and to Baron Steinberger, for the very many kind and courteous attentions received by the members of the convention at their hands.

Action on report of committees on Laws and Constitution was postponed.

The President arose and said he desired to briefly state to the convention, that in returning his sincere thanks for the uniform courtesy and respect that had been paid him in his official position during the deliberataons of this body, he must be permitted to claim a large share of indulgence in behalf of the very limited knowledge of parliamentary laws and usages with which he had undertaken the exercise of its duties and responsibilities. He confessed to a wide variance from the usual rules that govern deliberative bodies to which he had frequently, by his inexperience, subjected the convention, and while he felt encouraged by the kindness extended him, he felt that more than common regard and deference had been paid him, which he desired to treasure up as considerations of personal friendliness on the part of each member of the convention.

After which the convention adjourned to meet on the 8th day of August, 1852, at the call of the President.

To E. C. KEMBLE, President of the Associated Press of the State of California,—Sir,—We hereby beg leave to present to you for publication, a correct copy of the proceedings of the Editorial Convention, held in this city on the 8th, 9th, 11th, 12th, and 13th of the present month. Very respectfully, yours &c., Marcus L. Boruck, Samul Flower, L. W. Sloat, C. S. Biden, Engrossing committee.

E. C. KEMBLE, President.

A friend, who is perfecty reliable, informs us that there is a precinct in this county where about one hundred votes will be polled at the coming election, and that he knows of but one vote which will be cast for Reading, Kewen Robinson & Co. So thoroughly are these men convinced that the Whig candidates have millions of dollars at issue in the election, that Whigs as well as Democrats are determined to do all in their power to keep them from office.

FROM SAN FRANCISCO.

FIRE-PROOF WAREHOUSE.—The subscriber having completed a portion of the large Block of Warehouse which are in the course of erection at the Northern extremity of Battery street, next below Law's Wharf, San Francisco, is now prepared to receive entire cargoes on storage, either in bond or otherwise.

It is claimed for these Warehouses that they possess advantages of safety from fire and economy in expenses combined, which are no where else to be found. First, they are erected on a solid foundation of rock and stone, remote from any existing wooden buildings, as well as from any liable to be erected; next, they are immediately on deep water, so that merchant vessels of the largest class may discharge their cargoes upon wharves which have been built for their exclusive benefit, so near as to render the expense of labor in storage merely nominal.

It is presumed that advantages such as these will recommend these warehouses to general favor and use. Any one who may feel an interest in the matter, is invited to a personal inspection of the premises.

Where any considerable portion of a cargo is intended to be stored, no charge of wharfage will be made, either to the ship or goods; neither will there be any charge for porterage or labor, in receiving and delivering goods.

PLACER TIMES & TRANSCRIPT.

L. PICKERING, G. K. FITCH, J. E. LAWRENCE, EDITORS.

SATURDAY MORNING, SEPT. 6, 1851.

ELECTION RETURNS!!

CALAVERAS COUNTY.

We have received returns from 10 precincts, in which Bigler receives 656 votes and Reading 454—being a democratic majority of 202 votes.

NEVADA COUNTY.

Sixteen precincts heard from, give Bigler 1245 votes, Reading 1232, McCorkle 1208, Marshall 1261, Kewen 1262, Moore 1198. Eleven precincts remain to be heard from, which, we are assured by a gentleman who resides in Nevada, will increase the democratic majority to 300 votes.

It is now quite certain that James Walsh has been elected Senator, and W. Davis Williams, J. Wardsworth and W. H. Lyons to the Assembly all Democrats.

YUBA COUNTY

Partial returns from this county, have been received, by which it is believed that Bigler has a majority of 250 votes. Marysville gave 126 Whig majority.

SUTTER COUNTY

This county is reported as having gone Democratic by a small majori y.

SAN JOAQUIN COUNTY.

A "Republican Extra" of the 5th inst., has been politely furnished us by Mr. Sedgwick, the proprietor of the Stockton Stage line.

Stockton is Democratic. Bigler received 602 votes, Reading 588. For Lieut. Governor, Purdy 641, Baldwin 548. The County has been nearly all heard from, and the Republican makes the following summary of the result.

Bigler,	801
Reading,	802
Purdy,	840
Baldwin,	755
Congress.	
Marshall,	844
M'Corkle,	813
Kewen,	788
Moore,	753
Assembly.	
Hammond (Dem.)	850
Hiser (Dem.)	877
Crabb, (Whig)	832
Sheriff.	
Ashe	858
Congdon,	858

TUOLUMNE COUNTY.

By Todd & Co.'s Express, the San Joaquin Republican learns from Sonora, that the whole Democratic ticket has a handsome majority.

The city of Sonora gives Bigler 348, Reading 310. For Congress, Marshall has 380, M'Corkle 230, Kewen 268 and Moore 309.

(This is Messrs. Marshall and Moore's own District.)

For State Senators, Anderson and Hubbs have a large majority over their Whig opponents, Martin and Frazier; and Coffroth, Blanchard, Ingersol, Brush and Dameron, are largely ahead for the Assembly.

"Shaw's Flat precinct is reported 65 Democratic majority. This is glorious; we did not expect over 30."

The Tuolumne river voters have also given a Democratic majority.

At Jamestown Bigler received 151 votes, Reading 135.

EL DORADO COUNTY.

Hunter & Co.'s Express furnishes returns from the following precincts:

Placerville—Bigler 401, Reading 332, a democratic majority of 69, and the same with a very slight variation for the whole State ticket.

On the Count ticket, for Senator, Keene has 355 votes, Walton 315. The whig candidates stand as follows: Stewart 350, Newell 295.

For the Assembly, McMeans, Bouton and Wing are nearly 50 votes ahead of their opponents.—The division between Hall and Taylor will result in the election of one whig, probably Hopkins.

White Rock precinct gives Bigler 63, Reading 33.

Weaverville is 10 democratic majority.

Diamond Springs, reported 17 whig.

Mud Springs, 42 democratic majority.

The County, as far as heard from, is 459 democratic majority.

PLACER COUNTY.

About one-third of the precincts are heard from, and they give a *democratic majority of* 257! The returns furnished by our correspondent at Auburn are thus given: Auburn 23 whig maj.; Kelsey's Bar 21, Dr. Todd's 6, and Indian Canon 5. All the other polls heard from are DEMOCRATIC, as follows: Ophir 51, Horse Shoe Bar 106, Beal's Bar 50, Missouri House 2, Phelps' 6, Cape Horn Bar 1, Yankee Jim's 10, Smith's Ranch 25, Illinois Town, 16, Rice's Bar 7, Doton's Bar 4, Centreville 6, Condemned Bar 22, Elizabethtown 11.

Stoney Bar will give a very heavy democratic vote.

SANTA CLARA COUNTY.

The Herald gives partial returns. Bigler 823, Redding 640. Purdy, and Roman are laagely ahead.

George G. Wright, Esq., late member of congress from this State, has arrived, with his family, in San Francisco. They came up from San Juan on the steamer Pacific.

James Wilson, of New Hampshire, who by the last accounts was canvassing the Klamath country as a candidate for State senator, and is also understood to be an aspirant to the United States Senate, has actually received his documents as one of the land commissioners.

Machinery for the Mines.—The demand for this article from the quartz region, is more than the mills established in San Francisco can supply. The Sutter Mills in that city, are said by the Nevada Journal to have given great satisfaction by their work. The Gold Hill Mining company at Grass Valley, was the first supplied from that establishment, and orders are now given to furnish the Bunker Hill company, Ural Mining company, Nevada Quartz crushing company; and also a machine for Dr. Rogers, besides a number of machines for companies in the southern mines.

We understand that the Grand Division of the Sons of Temperance, for the State of California, will be instituted on Tuesday next, the 9th inst and that there are now six Subordinate Divisions in the State. D. M. W. P. Willis presides on the occasion.

A gentleman from Feather river informs us that he damming operations upon that stream are succeeding remarkably well About four miles below Long's Bar, some companies are taking out several thousand dollars per day. A company of twelve took out one day this week, $13,251.

We were under obligations to Gregory's express yesterday, for election news, and for the Nevada Journal in advance of all others.

We are under especial obligations to Bower's Express for election news.

Sir Henry Lytton Bulwer is said to have extended a very pressing invitation to Mr. Webster to visit England this fall.

Sandwich Islands—Annexation.

It is stated confidently that an agent of the Hawaiian Government is now at Washington city, negotiating for the admission of the Sandwich Islands into the American confederacy. It is said, upon such authority as admits of scarcely a doubt, that application has been made, and will be brought prominently before the country, at the assembling of Congress.

If such an offer has been made, it would seem to be the duty of the United States to listen to the application, and at the earliest possible moment, extend our laws over the country.

The Sandwich Islands have been made what they are by citizens of the United States. To Americans is due the credit of elevating the natives, opening plantations, establishing trade &c. and it is proper that we should receive the full benefit of the exertions of our citizens, by controlling her trade.

We give below an article copied from the New York Herald of the 28th July, written by a gentleman who was for many years a resident of the Sandwich Islands, in the capacity of Editor of the Polynesian:

Having noticed in the late papers a paragraph to the effect that the administration at Washington had determined to interfere to prevent further aggressions on the part of the French at the Sandwich Islands, I am induced, with your permission, to lay before your readers a few facts, showing the vast importance of this group to the people of the United States, and the desire of the rulers and inhabitants to become citizens of this Republic.

Their policy, up to a recent date, has been to remain neutral and independent, believing that the great powers would permit them to remain so, rather than to become the integral portion of any one of them. The course pursued by France towards them, for the past two years, demonstrates the fruitlessness of this hope. It is unnecesssary for me to recapitulate the details of the visit of the French naval force in 1849, which resulted in the unresisted dismantling of the forts, the destruction of public and private property, the seizure of the King's yacht, and other acts of a similar character. The causes alleged by the French as justifying the aggressions, were that the Hawaiian Government had placed too high a duty on foreign brandies (5s. per gallon); had not punished certain boys for insulting a French Priest, by mimicking him; that the sailors of a British-man-of-war had, in a drunken frolic, broken the glasses of a French dramseller, to the value of 50s. (the sum claimed by the publican was actually paid him by the officers of the ship in question); and that a French whale ship, for violating a law of the port, had been fined $65. Such were the pretexts on which were grounded demands for reparation, which, if admitted, virtually deprived the King of the sovereignty of the group.

Mr. Perrin, Commisioner from France, arrived at Honolulu in December last, in the frigate Serieuse, with instructions to press these demands to a conclusion with all the force at his command. Perceiving the inutility of concessions, that the French would be satisfied with nothing short of the virtual sovereignty of the group, the King now decided upon non-compliance, and to wait the action of the French forces. That American readers may fully understand the importance of French interests in the Hawaiian kingdom, I will state, that at this time, with the exception of the Catholic Missionaries, forced upon the islands at the point of the bayonet, there are not a dozen Frenchmen in the group, and of them not an individual of any position. The only French commerce is an indirect one of trifling amount, from Valparaiso, and the visits of a dozen whaleships or so annually.

The French authorities, on the visit were disappointed in the results. The native population, independent of their chiefs, exasperated by a series of injuries, and pertinaciously persisted in, had determined to resist the landing of the French forces. The numerous American and English residents to a man, sympathised fully with them; but without their assistance the Hawaiians would have found no difficulty in driving the French back to their boats. But this would have subjected the town of Honolulu to a bombardment and entailed, upon Americans in particular, a heavy loss in property. Fortunately, the United States ship Vandalia was in port, and was prepared to resist any act involving injury to American citizens. The French authorities, desirous of avoiding a collision with the American force, at last consented to patch up a provisional treaty, referring to the home Government for further instructions. The upshot of this is, however, merely to give them time to mature their plans, and prepare a force which shall, without fai, secure the submission of the King. Knowing this, he, his chiefs and people, have intimated, as we hear, to this government, their desire to be admitted to the Federal Union, reserving for themselves nothing further than security in their civil rights.

If this be correct—and I do not doubt it—the offer is now made to the citizens of this republic, as a free gift, of the entire Sandwich group, on such terms as Congress may themselves impose. The islanders ask in return, simply to receive the rights and protection accorded to American citizens. If this government does not avail itself of the opportunity thus presented, they may never again have a similar offer. The group, in territorial extent, is unimportant, its area being but 6500 square miles, but it is capable of supporting tenfold its present population, (80,000). It is the commercial and military key to the North Pacific, the central point from which radiate all the channels of commerce of that vast sea; possessing fine harbors, a fertile soil and salubrious climate, nothing is required but a stable government to make it the Cuba of the Pacific. It already consumes annual y nearly $1,000,000 of American merchandise. Its American permanent population is not far from 1,000, possessing valuable sugar and coffee plantations, in which and other permanent improvements, large sums have been expended. A merchant of this city is the proprietor of a sugar plantation on the Island of Kanai, the cost of which is nearly $90,000.

The American Board of Missions have expended somewhere near $1,500,000 in their operations, and have valuable homesteads. The floating American population touching at these Islands annually, is not far from 15,000, seamen and voyagers, from some 400 vessels. In short, American enterprise, both commercial and philanthropic, have invested the group with its present political importance—bestowed upon the inhabitants laws, religion, civilization, and will soon add to these gifts, language—for the English tongue is rapidly superseding the Hawaiian. The islanders have thus a moral claim upon the American nation for protection. In no way can this be more efficiently bestowed than by receiving them into the family of this great republic. It is true the native population is melting away by the same untoward causes which have wasted away our Indians, but in a slower degree. Those that remain are as well prepared to become American citizens as the multitude of European emigrants. Unlike the generality of them, they can read and write, and have already acquired democratic ideas, under the operation of their own liberal constitution of government, which will readily enable them to incorporate themselves under our institutions. One fact is certain—the native population is destined to be supplanted in numbers and power by a foreign race. They desire us to be their successors and protectors. Shall we or shall we not be? It can now be done, with the consent and desire of all interested. It requires no outlay of money—the present revenues of the Islands are more than adequate to the expenses of its government; time, opportunity, the interests alike of the inhabitants and ourselves point to this result. I believe, if all the facts bearing upon this question be presented to the people of the United States, a favorable response to the desire of the Hawaiians will be the result. It is for the purpose of bringing the question to their consideration, I have taken the liberty to enclose you the facts herein given, for the authenticity of which I pledge myself.

Very truly, your ob't serv't,
James J. Jarvies.

Boston, July 16, 1851.

COMMUNICATED.

The dangerous condition of some of the gangways to the steamboat landings in this city, has been a subject of general remark for some time past. It is almost miraculous how so many escape permanent injury, landing as they do at all hours of the day and night. Only to-day a gentleman was very seriously hurt in going aboard one of the boats on the point of leaving for San Francisco. It is to be hoped that the parties concerned will take warning by this accident, and secure the planks in a proper manner, but I fear nothing will rouse them to a sense of their duty, until prosecuted for damages sustained in consequence of their very culpable negligence. Carson Valley.

What are the advantages in settling this valley? is a question asked almost every hour in the day; the answer is very simple but little understood. Its mining and agricultural advantages, and the commercial interests of the vast and unsettled portions of our country, point alike to the important undertaking. First, you hear some one say "oh there's no gold there;" how do you know, young man, that there is no gold there? you have never tried it. Who does not reccollect when the richest mines in California were discovered by bold adventurers, that they were laughed at and told "there's no gold there;" but time passed away, the Pioneers made their *pile*—started home, and on their way showed their gold—told where they got it, and immediately these doubting Thomases rushed to the spot, expecting to make their fortunes in a day—a month, or a week, and finding themselves disappointed, they retired to some coffee house, there to *drink* and *mourn* over the hard times, as though the gold was to rise up from some hidden spot and quietly deposit itself in their pockets. But it is a well known fact from actual experience, that no portion of the country has ever proved richer in its gold mines, than that adjacent to Carson valley.—Men have made from five to fifty dollars per day in these mines, under the most unfavorable circumstances, and when they had to *work* and *watch* for Indians at the same time. The quartz mines have not yet met with the attention of a prospector, yet they must be of immense value. As to the agricultural interest of that valley and the beautiful valleys adjoining it, none need be informed who have heard the description of it as given by Gen. Winn Maj. Kinsey, and others who have seen it.

The Hot Springs in Carson Valley, are 145 measured miles from this city; and from there, it is from twelve to thirty miles to the discovered mines, where there is every appearance of much richer mines. The valley is about 90 miles in length, (80 of which has been measured by Dr. Birdsall, who came with the U. S. Rifles, as Surgeon of the Army in 1849) it is supposed to be from four to twenty miles wide, having fine river, (known as Carson river,) running through the entire length of the valley, while the most beautiful streams from pure mountain, springs constantly ripple over the fertile natural meadows and higher land of a still more beautiful country than any perhaps in the world. While Hot Springs—hot enough to boil an egg break forth from the mountain, as clear as a chrystal, possessing medical qualities, the value of which must be immense, and which time and necessity alone can test.

In that valley is to be a great frontier city. Lying as it does on the line between the Utah territory and California, we cannot but look forward to its commercial interest as being a great tributary of commerce, rolling its wealth in gold, stone, timber and its agricultural products, into the very lap of our citizens, upon a rail road of not more than 120 miles in length, and that in about 3 hours; while our city will furnish a vast population with every article of consumption they need, aside from what they raise themselves. Who then will not go to Carson Valley and try their fortunes? Gen. Winn tells us that the "Rangers" will be ready to start this day week. Then boys, be ready to start.

A Ranger.

Real Estate at Auction.—An extensive sale of lots, in various parts of the city, is to take place this day at J. B. Starr & co.'s store. Particulars will be found in the advertisement.

Seymour's Benefit.—The lovers of fun will remember that this affair is to come off tomorrow night. The inimitable Fairchild stays a day longer in town, to assist his fellow actor, and will give the "Burlesque Temperance Lecture," and sing "coming round the Horn."—Hyer and Sullivan appear in a grand set-to.—These attractions, in addition to a strong dramatic entertainment, will bring out the people *en masse*.

Mr. Petit goes to-day to San Francisco, where he will commence the erection of a magnificent Theatre for Dr. Robinson on Wednesday next. It is to be situated on Sansome street, near Jones' Hotel, and we are told that the contract under which the architect proceeds, authorizes him to use his own taste and judgment in the building, almost regardless of cost. We are assured Mr. Petit will prove worthy of this trust, and that he will finish in less than sixty days, the most beautiful Theatre in the Pacific coast.

The New American Theatre.—By invitation of the proprietor, Dr. Spalding, we have taken a good look at this superb temple of the drama, which in a few days will open its portals to the public. A more commodious, airy, and well arranged structure cannot be conceived for the purposes to which it is dedicated. The main building is 40 feet in front by 120 in depth.—The pit seats with perfect comfort, 700 persons. The first tier of boxes is provided with luxurious arm chairs and sofas, to accommodate an audience of 350. The boxes in the third row are divided into three separate compartments, and will accommodate 350 more, making the entire capacity of the Theatre to hold 1400 persons. every one of whom can have a full and unobstructed view of the stage. Mr. Petit, the architect, has added to his high reputation by the excellent arrangement of the whole house. The stage is very deep and broad, and the dressing and property rooms are stinted neither in size or number, which is not generally the case. The doors throughout the different parts of the house are intended to attain the greatest ease of ingress or egress, and all of them open outward, which is a most important provision in case of fire.—Without going into greater detail, we can assure our readers that they have a rare pleasure before them, in visiting this establishment, which will compare favorably with the most costly and sumptuous edfices, of a like character, in the Union.

Mrs. Woodwards Benefit.—No event in our theatrical world has occurred, of late, to interest the patrons of the Drama more than that announced to take place to-night at the Pacific.—A lady of rare artistic merit makes her first appeal to her friends in Sacramento, and we know that the gallantry and generosity of our citizens will not be called upon in vain. Mrs. Woodward justly occupies a high position upon the boards, and those who have witnessed her performances of Elvira, Lady Macbeth, the Queen, in Hamlet, and other leading parts in tragedy, as well as melodrama, will need no further suggestion to lead them to the Theatre, than a glance at the unusual entertainments offered.—Milman's great tragedy of "Fazio, or the Italian Wife" is the first piece, in which Mr. Booth appears as Fazio, and Mrs. Woodward sustains the great character of Bianca—one admirably calculated to display her finest powers. After an interlude of dancing and singing, the drama of "Moll Pitcher, or the Fortune Teller of Lynn" is produced, in which Mrs. Woodward has played the principal part for more than 100 nights. With such a bill on the occasion, the house will not fail to be filled to its utmost capacity.

Quartz on the Yuba.—Fergusonville, lately Brown's Valley, near Long's Bar, is the scene of busy operation in quartz working. A machine is at work belouging to the Philadelphia Quartz Co., and the vein has been traced several miles. The rock is as rich as any that has ever been found, and broken in any part reveals the glittering gold.—Navada Journal.

The Canal Mining and Aqueduct Company, of Segar's Bar, are said to be taking out of their claims from forty to sixty pounds of gold per day. The company numbers thirty men, and have a race a half mile long.

A heavy shower of rain fell at Nevada on Thursday afternoon.

Looking Ahead.—This is the season for selecting a location to work upon in the rainy season, and we find that at Sweetland's diggings, about 12 miles from Nevada, the miners are coming in, in very large numbers. The Nevada Journal says:

"Over three hundred have arrived there and located claims within a few days past, and have commenced throwing up dirt to wash when the rains commence. A number of cayote and tunnel companies have also been formed, and works have been undertaken, second only to those of Nevada. This locality will undoubtedly yield a rich harvest of gold during the coming winter."

Theatricals in the Mines.—The Nevada Journal of the 5th, states that Mr. Foley was about commencing a dramatic season in that city, and that the Chapmans now performing at the Pacific, are engaged to appear.

The Fare between Sacramento and Nevada is now reduced to $10.

Great French Tunnel.—This great work three miles in length, is on the railroad between Marseilles and Avignon. Its height is 30 feet and width 24 feet, and its depth below the surface of the ground six hundred feet. The cost of tunnelling was $2,040,000.

POSTSCRIPT.

BY THIS MORNINGS BOAT.

By the Senator, at an early hour this morning, we received at the hands of Mr. Tannatt, the San Francisco papers of the 5th.

The Election Returns constitute the all absorbing subject of interest.

THE RESULT IN SAN FRANCISCO.

An Extra of the *Herald* gives the returns up to 10 o'clock A. M., yesterday. The counting of the votes would not be finished before evening,

As far as could be ascertained, the following will prove the result:

Governor.

First Ward.—About a tie vote,
Second Ward.—(Official) Reading's maj. 38.
Third Ward— " " 415.
Sixth Ward—Bigler's maj. 62.
Seventh Ward— " " 100.
Eighth Ward— " " 20.
Ninth Precinct.—Reading's maj. 2.
Tenth " Bigler's maj. 131.
Eleventh " " " 106.

The above shows a whig majority of 160. The fourth ward will probably give Reading a maj. of 150. The fifth ward do. 200.

The maj. for Reading is not at all likely to exceed 500 in the city and county.

Legislature.

Snyder, democrat, and Soule, whig, are elected to the Senate.

The successful candidates for the Assembly are, so far as ascertained, Peachy, Ten Broeck, Chauncey and Wohler, democrats, and Orrick and Ellis, whigs. Campbell, dem., is elected County Judge. Byrne, dem., District Atty.

Jack Hays is Sheriff by an immense majority. Myron Norton, dem., is elected Justice of the Supreme Court. Simptom, dem., is elected Harbor Master.

FROM THE COUNTRY.

The Courier says, "the counties of Napa and Solano have elected a locofoco Senator."

We give for what it is worth, the following paragraph from the "Courier":

"We have reports that we have elected our Assemblymen in Marin and Mendocino—also an Assemblyman in Contra Costa. The whigs have also elected a Senator in the counties of Marin, Mendocino and Sonoma. A whig Assemblyman in Solan is elected."

The Mail Steamer now overdue, at the hour of the Senator's departure.

Pardon of Charles Duane.—The Governor has pardoned this individual, who it will be remembered, was recently convicted by the court of sessions of San Francisco, of an assault and battery, with intent to kill, and sentenced to one year's imprisonment. This act of the Governor appears to create some dissatisfaction in San Francisco. The Herald uses the following language in relation to the matter,

"We trust that for his own sake, the Governor will publish whatever petitions he may have received praying Duane's pardon. However this be, we desire to excite against this man no undue prejudice. Let him leave town, as he has succeeded in getting out of prison. His appearance in public will not benefit him, and is much better that he should leave forthwith. We desire not his destruction, and we trust he will have sufficient sense to withdraw forever from a community in which he is regarded but with a feeling of distrust and hatred. The Governor's pardon, though it restore him to liberty will not avail him against the popular indignation, and we therefore hope he will take good advice and depart."

The Courier says the vigilance committee arrested Duane, (Dutch Charley,) the evening after his pardon, so there is some prospect of his being transported, to say the least.

Mr. and Mrs. Stark are to commence an engagement at the Adelphi Theatre in San Francisco on Monday evening next. They leave this city on the Senator this afternoon.

An arrangement has been entered into between a New York publisher and the Hon. Thomas Hart Benton, for the publication of the Historical Memoirs of the Life and Times of that eminent Statesman. This work will embrace some five large octavo volumes.

Sailing Under Water.—The problem of Submarine Navigation is about to be solved, by a vessel constructed by Mr Cruesot of Paris.—Its machinery is of the propeller sort. The craft dives under the surface of the water at Calais and reappears at Dover, thence proceeding by way of the Thames to the Grand Exhibition, where it would arrive safe, *if no accident happened.*

AN ACT
Concerning Oysters.

The People of the State of California, represented in Senate and Assembly do enact as follows:

Section 1. It shall not be lawful for any person or persons to stake off any Oyster bed of natural growth, or to prevent or interrupt any person from taking or carrying off Oysters from any such bed on any of the lands belonging to this State below low water mark, under a penalty of one hundred dollars for every such offence, to be recovered with costs of suit by any person suing for the same before any Justice of the Peace.

Sec. 2. Any person or persons may lay down and plant Oysters on any of the lands belonging to this State below low water mark in which there is no natural growth thereof, and the ownership of and the exclusive right to take up and carry off the same shall be continued and remain in such person or persons who shall have laid down and planted the same.

Sec. 3. Any person or persons who have or who hereafter may lay down and plant Oysters as hereinbefore provided, shall stake off the land on which the same is or hereafter may be laid down and planted, and such stakes shall be sufficient marks of the boundaries and limits, and entitle such person or persons to the exclusive use and occupation thereof for the purposes prescribed in this act; Provided, That nothing herein contained shall be deemed to authorize any impediments or obstructions to the free navigation of the said waters as now used.

Sec. 4. Any person or persons who shall enter upon any lot of land in which there shall be Oysters laid down and planted, and which at the time of such entry shall be staked off pursuant to the provisions of this act, and who shall take up and carry off therefrom such Oysters, without the consent or permission of the occupants and owners thereof may be sued therefor, and in such suit said occupants and owners shall upon establishing such fact by competent proof recover any such damages as he or they may have sustained in the premises, and the judgment in such suit may be satisfied out of the property, either real or personal of the defendant.

Sec. 5. Any person who shall wilfully destroy or remove or cause to be removed or destroyed, any stakes or marks intended to designate the boundaries and limits of any land claimed and staked off pursuant to the provisions of this act, shall be subject to pay a fine of not less than one hundred dollars for every offence to be recovered with costs of suit by any person suing for the same before any Justice of the Peace having cognizance thereof and the person so offending shall moreover be deemed guilty of a misdemeanor and be prosecuted accordingly by indictment or otherwise.

Sec. 6. All fines and penalties collected under sections one and five of this act, shall be appropriated one half to the person prosecuting the same and one half to the county in which such indictment or prosecution may be brought or sustained.

STATE LAWS.

AN ACT

To provide for the Translation of the Laws into the Spanish Language.

The people of the State of California represented in Senate and Assembly, do enact as follows:

Section 1. The Secretary of State is hereby authorized and directed from and after the day of the passage of this Act, until the first day of April, one thousand eight hundred and fifty-one, to receive proposals for the translation of the Laws, and such other documents as may be ordered by either branch of the Legislature, into the Spanish language.

Sec. 2. Each proposal shall state distinctly at what rate for each folio of one hundred words in English, the person proposing will execute the translation into Spanish; and no proposition to translate at a higher rate than one dollar and fifty cents per folio shall be considered.

Sec. 3. It shall be the duty of the Secretary of State, on the second day of April, at the hour of 3 P. M., to open all proposals filed in his office, for the translation of the laws into the Spanish language, in the presence of a joint committee, and shall select from them the proposa containing the lowest bid and shall award the translation of the laws to the person making the same, at the ra e therein specified; Provided, that in the opinion of the committee such bidder shall be capable of performing the same.

Sec. 4. The Secretary of State shall execute and deliver to the person to whom the translation of the laws and joint resolutions herein ordered, so aforesaid, may be awarded, a certificate of his appointment, and shall keep a record thereof in his office. The translator so aforesaid selected and appointed shall, before he enters upon the discharge of the duties of his office, take and subscribe an oath for the faithful and correct translation of the laws and joint resolutions as herein ordered into the Spanish language, and also give bond with one or more securities, in the sum of thirty thousand dollars, to be approved by the Governor, Treasurer and Secretary of State, conditioned for the entire, correct and complete translation of the laws and joint resolutions, as herein ordered and required, as before provided to be translated into the Spanish language, on or before the first day of September, one thousand eight hundred and fifty-one.

Sec. 5. The Secretary of State shall cause immediate publication to be made in one or more newspapers, of the aforementioned time and place of receiving proposals for the translation of the laws into the Spanish language, and shall also cause to be published an advertisement for proposals between the first and thirty-first day of January, of each succeeding year, for the aforesaid translation of the laws, which proposals shall be received, opened and awarded as provided in the preceeding sections of this Act.

Sec. 6. There shall be appointed a joint committee, composed of three members from each branch of the legislature, whose duty is shall be to designate the laws and resolutions to be translated within the time specified in this act, and said committee shall also examine and decide upon the qualifications of such persons as may make proposals for the translation of the laws aforesaid

AN ACT

Declaring certain rivers and creeks navigable.

The people of the State of California represented in Senate and Assembly do enact as follows.

Sec. 1. So much of the San Jose de Guadalupe river as lies between its mouth and Alviso; and so much of the Petaluma river, as lies between its mouth and where the road crosses said river, leading from Sonoma and San Rafael; and so much of Sonoma river as lies between its mouth and the town of San Louis; and so much of Napa river, as lies between its mouth and Napa City; and so much of the Suisun river, as lies between its mouth and the town of Suisun Embarcadero; and so much of the Sacramento river as lies between its mouth and the mouth of Clear Creek; and so much of Feather river as lies between its mouth, and the northern boundary of the city of Ophir; and so much of Yuba river as lies between its mouth and a point twenty feet west from the east end of the Public Plaza of Marysville; and so much of the San Joaquin river as lies between its mouth and the Tulares Lake: and so much of the Stockton Slough, as lies between its mouth and the bridge, that is now built above El Dorado street, in Stockton; and so much of the Moquelumne river as lies between its mouth and the first falls; and so much of the Tuolumne river as lies between its mouth and Canon, or foot of the rapids; and so much of Deer Creek, as lies between the house of Peter Lassen and its mouth; and so much of the river, called the American Fork, as lies between its mouth and the town of Brighton, are heaby made and declared navigable.

Sec. 2. It shall not be lawful for any person or persons, to build or construct any bridge or dam whatever, across said rivers or creeks, so far as they are by this Act declared navigable.

Sec. 3. Nothing contained in the foregoing sections, shall be so construed as to prohibit the court of Sessions of any county, lying and being on said rivers declared navigable, from granting license to any person or persons to erect and construct bridges or ferries, where the public convenience may require them: Provided that said bridges and ferries shall not obstruct the navigation of such streams and rivers, by steamboats and other water crafts.

Sec. 4. The act entitled "An Act declaring certain rivers, creeks and sloughs, herein named navigable," passed March thirtieth, one thousand eight hundred and fifty is hereby repealed.

GOLD FOIL!

KEARSING'S GOLD FOIL MANUFACTORY—Refining and Assaying Office,
BRICK Row, on J street, between 3d and 4th, and opposite the Crescent City and Missouri Hotels.

The undersigned, at the solicitation of members of the Dental Profession, has invested twenty thousand dollars for the manufacture of Gold Foil, Gold Plate, Solder, Wire, and spiral springs. Having procured ample Machinery, Chemical Apparatus, and materials for refining and assaying gold, the undersigned solicits the patronage of the people of California. Jewellers will find it to their advantage to have their Gold Dust made malleable by removing the iron, iridium, palladium, &c. which is found in the dust. Gold of any description melted into ingots, and correct assays made with the intrinsic value as bullion stamped on them. Notwithstanding the expense of fitting up, the exhorbitant price of acids, &c. the undersigned will sell Foil by the single ounce at $15, half ounces $8—quarters $4—eighths $2—and if generally patronized, will reduce it so as to render it unprofitable to send to the Eastern States for an article, the most important quality of which is seriously affected by the atmosphere in the transmission across the Isthmus, and which will bear no comparison with foil fresh from the kneading tongs.

We, the undersigned, have used the Foil made in this city by Mr. Kearsing, and pronounce it to be an excellent article. W. W. LIGHT, Dentist,

THE PEOPLE of the State of California to George W. Crummey, Greeting:

You are hereby notified that, on the 21st day of December, 1850, suit was instituted against you by the above plaintiff in the District Court aforesaid, for the sum of six hundred and two dollars with interest, the amount due from you to said plaintiff for important medical services, at divers times, and before the commencement of this suit, rendered to you by said plaintiff at your request. That on the same day the said plaintiff, by proper affidavit, made application to said court for a writ of attachment; that on the same day the said writ of attachment was issued and executed, by attaching the following property, to-wit: 36 sacks of oats and 9 s'ks barley; that said writ was made returnable to the April term, 1851, of said court.

You are, therfore, hereby summoned to appear and answer unto the complaint in the above suit, on or before the expiration of three months from the date hereof, or judgment by default will be taken against you By order of said court.

THE COMMERCIAL EXCHANGE FOR ALL NATIONS.—The undersigned intends to open early in September, an establishment to be called the
Commercial Exchange for all Nations,
in the Fire-proof Building now erecting by Messrs. Smith, Brothers & Co. on the corner of California and Sansome streets, San Francisco

The purpose and plan of the establishment, are to assemble at one point the Bankers, Merchants and others residing in or visiting San Francisco.

Similar institutions have always been the distinguishing features of commercial cities, both in the Old and New World, and although the permanent formation of such an institution, has from various causes hitherto been frustrated; the Proprietor trusts, that being enabled now to locate subscribers in a perfectly fireproof building, and basing his project upon its comprehensive utility, he will meet with that support which such an undertaking bids fair to justify.

The advantages offered by this establishment are principal ly, in 5 acts of
cipally these:

A Book containing a Register of the arrival of all vessels will be kept constantly posted up as they are reported, and also a copy of their manifests.

A Book containing a List of Vessels loading, with cargo or passengers for different ports, will be strictly kept, and merchants are particularly requested to furnish the necessary information in order that correct advice may be given.

Letter bags will be made up for different parts of the world, which will be forwarded by the first opportunities.

The latest newspapers and periodicals that can be obtained from the United States, Europe and other parts, will be kept constantly filed for reference.

Correct lists of prices of stocks will be given daily, and a Commercial Exchange Prices Current will be issued, under the superintendence of Mr. Sloat, previous to the departure of each semi-monthly steamer. In one word, every possible information of interest to the mercantile community, will be give n.

The room will be fitted up with desk tables, where subscribers can transact their business, and leave their papers and documents in perfect security from fire.

The Exchange will be ready for the commencement of business about the 8th September, and will be open daily from 8 o'clock in the morning till 8 o'clock at night; the fullest attendance being expected between the hours of 1 and 2 P. M.

The terms of subscription will be, for the entry to the rooms $5, and for the use of a table desk, $20 per month

Subscribers will have the privilege of entry, but may introduce any gentleman who may have business with them at the time, and captains of vessels introduced by a subscriber, will have the free use of the rooms during their stay in port.

THE TUNNEL COMPANY.
IMPORTANT TO ALL MINERS.

THIS Company commenced their work on the 20th day of June, 1850, and have continued their labor from that to the present time. They have made a TUNNEL through the mountain a distance of 1400 feet, and have constructed the most substantial Dam in California. By means of this labor they will be enabled to drain the South Fork of the American River, just below the old Sutter saw mill, for the distance of one and a half miles. This work is now entirely complete, having cost the company $105,000.

It is reasonable to suppoee that the water in the river will be lower this season than in former years, and from the prospects made, there is positive knowledge that the Diggings are among the richest in California.

The present Tunnel Company proprose to sell from 200 to 400 claims, 15 feet each, for the sum of $300 each. The claims will be laid off immediately, and when sold, will be drawn by lottery. Miners and capitalists who desire to reap a rich reward for their labor, will embrace this opportunity.

There will be no claims solds after the 1st May, and persons who wish shares should apply early.

The books of the company will be opened on the 15th day of April, to receive subscriptions for stock
